Walk over the Ponte Vecchio which has buildings along either side of it and is filled with shops full of gold, jewels, leather and more.

3

ALBERO DELLA PACE

Make sure to stop and admire the beautiful statue by Andrea Roggi of a couple turning into an olive tree decorated with tiny gold olives. The statue stands as a symbol of resilience and remembrance.

4

PIAZZA DELLA SIGNORIA

Here you will find a wonderful open air museum showcasing incredible statues, the Neptune's Fountain and the Uffizi Gallery.

5

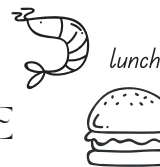

CATTEDRALE DI SANTA MARIA DEL FIORE

One of the most iconic stops in all of Italy, the Piazza del Duomo. Walk the perimeter of the building and admire the architecture and detail of this beauty. We think most of the beauty lies on the outside, but you can join the long (!) queue to take a look inside.

6

MERCATO CENTRALE FIRENZE

You'll find all your favorites fresh and ready to purchase at Mercato Centrale. Indulge in these delicious delights or stock up for later!

7

BASILICA DI SANTA MARIA NOVELLA

Another beautiful church to be admired from outside or within on your way back through the city.

8

PONTE SANTA TRINITA

Walk back over the Ponte Santa Trinita to see the famous Ponte Vecchio in full view.

9

PIAZZA SANTO SPIRITO

If you have read our book recommendation „Still Life“ you will not want to miss this Piazza which is featured in the book. Various restaurants offer dinner in different price categories. If you feel like splashing out, grab a drink up on the rooftop bar called **Loggia Roof Bar**.

10

PIAZZALE MICHELANGELO

It's a bit of a walk and it is also up hill and includes some stairs. Luckily there's a real treat at the end. You're about to see the best view over Florence!
